

Elliott Saruski

Front-End Engineer

Email: elliottxsaruski@gmail.com

Portfolio: www.elliottsaruski.netlify.app

Location: Miami, FL

Elliott is an ambitious front-end developer with over 2 years of experience crafting dynamic and user-friendly web interfaces with React.js. With an inquisitive mind and a keen eye for design, he is committed to delivering high-quality, reusable code and eager to expand his capabilities as a developer.

SKILLS

Languages: React.js, JavaScript (ES6+), HTML5, CSS3

Technology: Node.js, Vite, Git/Github, RESTful APIs, Netlify, Figma, Tone.js, Web Audio, Notion, react-three-fiber

Additional software: Ableton Live, Blender 3D, Adobe Creative Cloud, TouchDesigner

PROJECTS

***Symptoms of Nature: A Creative Collective* - symptomsofnature.netlify.app**

Tech: Vite, React.js, Node.js, React Router, Notion API, react-reader

- 1 of the 3 founders and sole developer on the team.
- Hosts and spotlights artists' latest creative projects, events, and community collaborations.
- Utilizes Notion API as a CMS, allowing the team of 5 to independently write and update blog posts featured on the home page, without having to code.
- react-reader will handle displaying .epub files of our monthly Zine (created by our design department) for an immersive online experience.
- First Zine (release date August 16th, 2024 - with live event) features over 10 artists and their creative works..

***HRS* - hrs-app.netlify.app**

Tech: Vite, React.js, Node.js, wavesurfer.js, File + FileReader API

- Web App that allows users to adjust the speed of uploaded audio files.
- Responsive interface includes a radial knob to adjust speed and a traversable visual audio waveform.
- Can function as a standalone web audio player and waveform visualizer (wavesurfer.js).

***envi: A Creative Portfolio* - envimusic.netlify.app**

Tech: Vite, React.js, Node.JS, React Router, react-three-fiber, Web Audio API, react-tweet

- Website created for my personal electronic music and visual production project, *envi*.
- Custom web audio API player with filters that play *envi*'s music (over 20 songs).
- Uses react-tweet to display a series of 30 personal tweets, each containing a 3D render.
